

I feel that it is important to keep national and regional translator service available for FM stations and that they should NOT be displaced by the expansion of LPFM stations. I am a listener to K-LOVE in the Chicago market. K-LOVE is a great source of music, encouragement and news for me that is unmatched in my market. I also enjoy listening to K-LOVE in other markets when I travel for business and pleasure. I feel that the loss of K-LOVE would have a negative impact on the Chicago market if it were to be displaced by LPFM signals. I believe that K-LOVE provides wholesome programming for families that is unmatched in broadcasting today and it would have a negative impact on the public in the Chicago market to lose K-LOVE to an LPFM station. Please DO NOT allow the expansion of LPFM stations and DO continue to permit FM translator service.
